

## Plan Now, Save Later: How Cooperative Contracts Help You Prep for Seasonal Shifts

**Support your infrastructure and operations with trusted solutions already on contract**

As colder months approach and unpredictable weather becomes the norm, public works directors turn their attention to preparing infrastructure for seasonal changes. Tight timelines, limited staff, and aging facilities often push maintenance into reactive mode, where emergency fixes cost more, take longer, and strain your operations.

Instead of enduring procurement delays or pushing projects to next year, agencies can rely on Sourcewell for fast access to competitively solicited contracts for infrastructure maintenance services. Connect with local, qualified suppliers ready to support weather-sensitive projects for everything from pavement repairs to storm system checks.

Now is the perfect time to plan for:

- Pavement maintenance and crack sealing
- Culvert, drainage, and stormwater system checks
- Utility system tune-ups
- Bridge and guardrail inspection/repair
- Fleet maintenance for utility trucks or snowplows
- Emergency response site readiness
- Community grounds care

Sourcewell's cooperative contracts eliminate delays, reduce administrative burdens, and support public purchasing requirements so your team can efficiently maintain the roads, utilities, and facilities your community relies on, no matter the season.
